

Appn. Ser. No. 10/821,789
Response to Nov. 2, 2004 OA

Dkt: MA51-001

REMARKS

Reconsideration is requested.

The allowance of claim 3, and indication that claim 9 contains allowable subject matter are acknowledged.

Claims 1-2 have been cancelled.

Claim 4 has been amended to recite a level mounted interior of the mast member but visible from outside the mast member through the aperture in the mast member, and is believed to be allowable. Support for amended claim 4 can be found in Figs. 2-5.

Claim 5 has been amended to recite a mast member including a hollow wall having an inside surface and outside surface and having first and second apertures through the hollow wall; and at least two levels supported by the mast member, inside the hollow wall, one arranged in a first plane, and arranged to be viewed from outside the hollow wall from a front of the mast member, through the first aperture, and another, arranged generally normal to the first level, arranged in the first plane, and viewable from outside the hollow wall from a side of the mast, through the second aperture, and is allowable for the same reasons that make claim 3 allowable. Support can be found in Figs. 2-5. Claims 6-7 depend on claim 5 so they too are allowable.

Claim 8 has been amended to change LNB to LNBF as required by the Examiner and to incorporate the limitations of objected-to claim 9. Claim 8 is therefore allowable.

Claim 9 has been cancelled.

New claim 10 has been added that depends on claim 3 and is therefore allowable.

In view of the foregoing, allowance of claims 4-8 and 10, in addition to the previous allowance of claim 3, and issuance of a Notice of Allowance, are requested.
